

New pneumatic control

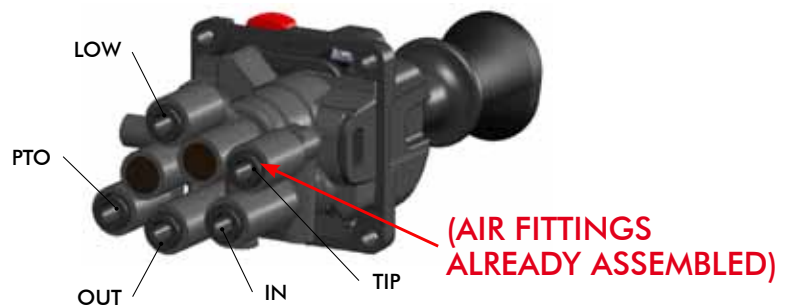

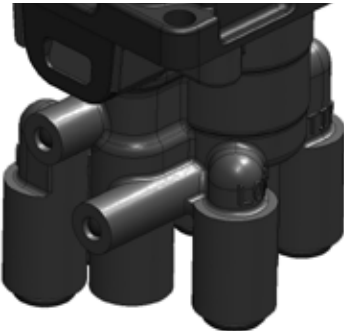

N-Force TOP CLASS PTO/VALVE CAB AIR CONTROL **evo**

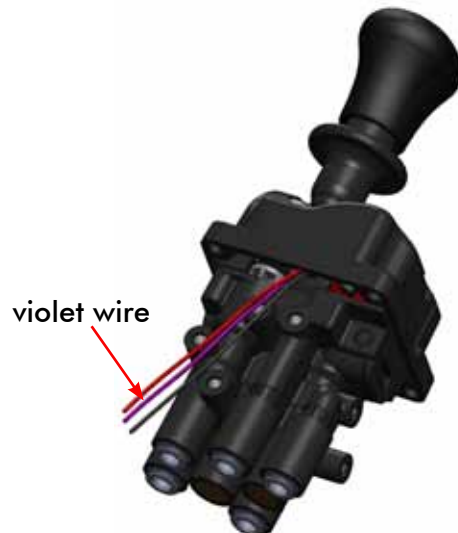

Hereby we are glad to inform you that it is now available the new air control N-FORCE EVO to operate PTO and tipping valves, which will progressively replace the current N-FORCE model.

The main features are:

- engineering compound casing
- built-in air fittings (inch or metric versions available)

- Third wire available to manage AUX signal.

- Standard PTO lever switch

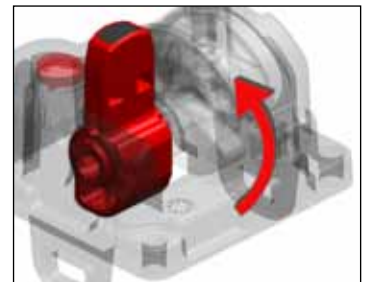

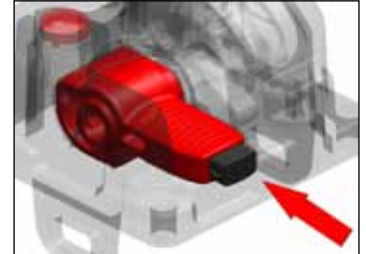

- New PTO lever with safety lock switch

NEW

1) Push button

2) Rotate lever

LOCK SWITCH: To control the PTO it is necessary to push the black switch and then lift the lever up. This lock prevents from accidental PTO engagement operations.

- Furthermore, in case of special requirements it is also available a push-in 90° elbow adaptor P/N 10001700099.

CODING SYSTEM

100001XYPPK

X = 3 N-FORCE EVO WITH FITTINGS FOR 6mm PIPE
X = 9 N-FORCE EVO WITH FITTINGS FOR 1/4" PIPE

Y = 1 STANDARD PTO LEVER
Y = 5 NEW PTO LEVER C/W LOCK SWITCH

PP = PROGRESSIVE NUMBER ACCORDING TO THE DIFFERENT FUNCTIONS

K = SYSTEM CHECK NUMBER

N-FORCE EVO with standard PTO lever

Available versions:		Lever return		
		Automatic "CE" 	Manual (with low and tip block) 	Manuale (with low block) 
with PTO lever	Automatic PTO knock-off	100-001-31003 <i>air fittings ø 6</i>	100-001-31094 <i>air fittings ø 6</i>	100-001-31209 <i>air fittings ø 6</i>
		100-001-91003 <i>air fittings 1/4"</i>	100-001-91094 <i>air fittings 1/4"</i>	100-001-91209 <i>air fittings 1/4"</i>
	Manual PTO knock-off	100-001-31030 <i>air fittings ø 6</i>	100-001-31067 <i>air fittings ø 6</i>	100-001-31127 <i>air fittings ø 6</i>
